Las Vegas, September 14th 2017

DEAR SIRS
PRESIDENTS OF THE NATIONAL FEDERATIONS AND ASSOCIATIONS OF
BODYBUILDING AND FITNESS OF SOUTH AMERICA
City.-

From our considerations:

Receive a warm greeting and wishes for success in all your activities.

After successfully completing our South American Championship we want to congratulate and thank you for your outstanding participation, we have all returned home with great satisfaction, full of strength in the commitment to work for the benefit of our sport and tightly united as brothers. Thank you all.

On another hand, today we are in Las Vegas - USA on the occasion of the Olympia Amateur, an event that has been marked in history as a total lack of respect for IFBB standards, the NPC is imposing the event to be directed by NPC judges and officials, the same ones that do not have an international card, much less with the level of training that our sport requires. For this reason the IFBB has preferred to withdraw all its Judges and Officials and to take the corresponding legal actions.

We have arranged for the athletes from our region some of our officials to accompany them, without wearing their IFBB uniform, in the fundamental sense of safeguarding their participation and support them.

Situations like this can not be accepted and will never be repeated. As a South American Confederation we are ready and willing to support the IFBB authorities in all the decisions they make, the same ones we will inform you in due case.

We will all remain united and working as a team to benefit our sport and athletes.

Sincerely,

Lcdo. Juan Fernando Paredes
